In Great Britain it will be cheaper for our readers to order *Gibbons Stamp Weekly* from their nearest Newsagent or Stationer, or from the Railway Book-stall. This will save postage, and the paper will be delivered flat, instead of folded, as it would be if posted.

*Gibbons Stamp Weekly* is produced in order to help and encourage those who are either now forming a collection or are about to start the most fascinating and fashionable hobby of STAMP COLLECTING.

The aim of *Gibbons Stamp Weekly* will be to help young collectors by publishing series of articles on all matters that may be of use to them.

Articles will in due course appear on such subjects as:—

How to choose a Stamp Album, with descriptions of the leading kinds.

On buying Packets and Sets.

On Exchange Clubs: how to start and how to Conduct them, with a Model Set of Rules.

How to Mount Stamps.

On Measuring Perforations, and how to detect Watermarks.

On what to avoid in Stamps.

Advice as to what Stamps to Purchase, so as to have a good, sound Investment.

On Historical Facts of the past Sixty-five Years that may be learnt from our Stamps.

On the Geographical Interest of Stamp Collecting.

Humorous Incidents connected with Stamps. Stamps as Works of Art.

How to Collect, and what to Collect.  
&c., &c., &c.

A correspondence column will be opened, and we shall endeavour to reply fully to all questions sent to us.

Twice a month we propose to GIVE AWAY to every subscriber to *Gibbons Stamp Weekly* a genuine postage stamp.

Another feature that we intend to take up is a series of Stamp Competitions—about one a month.

A very valuable lot of large packets and sets of stamps, albums, etc., will be given as prizes in these competitions.

At least once a month we offer a real SPECIAL BARGAIN to readers of "*Gibbons Stamp Weekly*."

NOTE.—The collector will find in this Catalogue a mass of useful information given by no other Catalogue known to us. We divide and price separately all minor varieties of perforation, watermark, and type, and thus enable the collector to discover the value of rare varieties he may possess, and which are not given in any other catalogue.

In issuing the New Edition of our Priced Catalogue, we wish to draw attention to the chief alterations made therein.

After a trial for some years of small illustrations, we have come to the conclusion that they are not suitable for the *leading Stamp Catalogue*, chiefly from the fact that when they have been used in printing two or three large editions of this work all the fine lines wear out, with the result that, in many cases, the young collector has had great difficulty in identifying varieties. We therefore decided to go to the great expense of inserting new and exact-sized illustrations throughout our Catalogue. The cost has been close upon £800, and we leave our readers to judge whether the result is not greatly superior to any that has hitherto been attained by similar trade lists. A comparison of this new edition with any other catalogue will, we venture to think, conclusively prove that for general get-up and for beauty and clearness it far excels any previously published.

We are rather sorry to say that, in order to place the large illustrations in double column, it has been necessary to enlarge the Catalogues by about an inch, both in width and length.

In this edition also a more expensive paper is used, which, being thinner than that in former use, is better adapted for bringing out the type and illustrations more clearly.
